-------------------	--

TITLE:	Enhancing Quality Assurance Management in Jordanian Universities
---------------	---

DESCRIPTION: A Model (Principles, Priorities, Guidelines and Procedures) will be produced to support Jordanian HEIs, and their Quality Assurance Bureaus, to improve internal QA in line with new national HE Accreditation Council requirements and international expectations. The Model will be based on analyses of needs and capacities in Jordanian HEIs and the experiences and best practices from the successful QA Action Line of the Bologna Process. Workshops, consultations and 'matching' exercises will contribute relevant material from Jordanian and European HE institutions, QA agencies and consortia. The Model will be piloted in Jordanian HEIs and complemented by training and capacity building to support its sustainability. European experiences in building productive relationships between HEIs and their QA agencies will inform the effective implementation of the Model and reflect the importance of autonomous HEIs meeting national/international expectations whilst still working in different contexts.
